

### Product Description

Well proven and hugely successful the LED icicle Light range is perfect for intensely brilliant seasonal display lighting.

Great for use with cross streets, along canopies, around buildings, and even as a ceiling of light for the extra sparkle.

Having exceptional low energy consumption and minimal maintenance this product is the ideal long-term professional solution to effective illumination.

Each LED lamp is encased in a silicon gel with a PVC membrane making them weather and damage resistant, the cable is black or white rubber sheathed and the product conforms to the latest EN standards. Colours available are cool white, warm white or multicolour

### Product Detail

4 core 0.5mm rubber cable

Clear plastic with indent to protect and Disburse lights evenly

Encapsulated Low Voltage LED Lamp

Sealed plastic housing holding the two connectors

The 500mm drop LED icicle lights come with 150 LED Lamps across 45 strings.

This is on a 5m long black or white rubber cable.

These are inter-connectable from one power source, and can be extended up to 40 sets (200m).

The lights themselves are available in White, Warm White or Multicolour with a 1 year guarantee.

The 700mm drop LED icicle lights come with 240 LED Lamps across 48 strings.

This is on a 5m long black or white rubber cable.

These are inter-connectable from one power source, and can be extended up to 40 sets (200m).

The lights themselves are available in White, Warm White or Multicolour with a 1 year guarantee.

### Example of Colours Available

Lights shown on white cable.
